NTISANCES.

Eleven (11) were reported to the Board. Of these four (4) were found on inspection to be without ground. The remainder were abated with the exception of one—at the time the complaint was laid, we were cancelled, by reason of labor conditions, to extend the time for correction of the condition on promise of endeavoring to comply with the best that could be done.

The approach of cold weather re-

moved a large part of the undesirable conditions, and if drainage is not promptly made in the spring, the matter will be pressed to a satisfactory conclusion.

As a result of the activities of the Department of Health, prior to the 50th Anniversary Celebration it was found that the sewage of six houses was being illegally emptied into Stevens Run, and notices being served upon the persons, the proper connections were made without contest.

We also served for the Department of Health 117 notices for the improvement of conditions of local water supplies.

The very large majority of these notices were promptly and willingly complied with and it was a matter of regret that stringency of labor conditions and lack of time made it impossible to push to conclusion the very few which were ignored.

MORBIDITY STATISTICS.

	Cases	Deaths
Measles	225	1
Diphtheria	11	1
Whooping Cough	7	0
Typhoid fever	4	0
Erysipelas	4	0
Chicken pox	2	0
	253	2

The handling of these cases as required by law involved the following work by the secretary and health officer.

Notices to post placard 164; Placards posted, 164; report of placarding, 164; reports of cases, 283; reports of recovery, 24 written, uncounted verbal; notices to remove placards, 164; orders for disinfection, 9; reports of same, 9; daily school bulletins, 79; 226 school permits.

Careful chronological record is kept of all these papers, in addition to being filed for reference.

Nine homes were disinfected by the health officer, the amount of work varying from the disinfection of one room, the minority, where the patient is properly isolated, to the complete disinfection of the whole house, frequently requiring two entire half days.

Mr. Wavel is entitled to much credit for his faithful painstaking, uncompensated service.

The epidemic of measles which commenced the closing days of 1912 was by far the largest of which we have record, and we believe the figures for this epidemic are very nearly accurate.

Diphtheria was slightly more than usually prevalent—the eleven cases appearing in four outbreaks, January, July, October and December, sufficiently separated that one cannot be directly charged to the others. Two were confined to the initial case, and the individual cases of the other two were so nearly simultaneous, and widely separated as to locality as to make it improbable that any one is traceable to another. It is seldom possible, even with unlimited time, money and opportunity, to determine the source of the infection from which the disease appears apparently de novo—but it is a matter of great gratification that each outbreak has been limited to the initial cases. This we believe is the result of observance of quarantine regulations, willingly accorded by most people, and by others, by reason of the penalty which the policy of the Board, consistently adhered to for some years past, has made certain to follow disregard thereof.

During the year we successfully conducted one prosecution for violation of the quarantine regulations ordained at the beginning of the year, which have worked out very satisfactorily, so far, with the exception of one point.

The Board, and especially its executive officer, were harshly criticized recently, by various persons, (some, at least of whom, could be reasonably expected to be sufficiently fair-minded to ascertain the facts in the case before passing sentence) for failure to supply the necessities of life to certain families quarantined for diphtheria.

The quarantine regulations of the Board, (Ordinance of Jan. 9, 1913), empowered the Board, when certain conditions have been fulfilled to furnish such necessities.

Two families were reported to the Board as being unable to secure the necessities of life.

An officer of the Board immediately visited both places.

At the one place he was informed that they were not in need of assistance—the report, evidently being gratulations, on the part of the informant.

At the other, the fact was developed that the head of the household did not want to qualify for the wage arrears permit, but wanted to stay at home.

In the belief that the intent of the Ordinance was not to provide support for those who voluntarily elected to make themselves a public burden by failing to avail themselves of the means provided to allow them to go to work, the assistance was refused, and was before properly so.

The discussion incident to the above has brought out certain other aspects of this section of the quarantine regulations which will properly be made the subject of a recommendation separate from this annual report.

HENRY STEWART, Sec.

The Borough Council,

Gettysburg, Pa.

Gentlemen:

I am directed by the Board to certify to your body the following resolution, adopted at a meeting of the Board January 19:

Whereas the intent of the Board in its adoption of the quarantine regulations did not contemplate furnishing subsistence to families under absolute quarantine by reason of their own failure to avail themselves of the procedure afforded them to secure a modification of the quarantine, and

Whereas two successive borough attorneys have construed the quarantine regulations as imposing such obligation,

Whereas the present borough attorney has given his opinion that the Section 18 of the quarantine regulations providing for furnishing subsistence to quarantined families is illegal, by reason of the existence of an Act of Assembly providing for the care of such persons by the Board of Poor Directors.

Be it resolved that Section 8 of the quarantine regulations of the Board of Health of Gettysburg (Ordinance approved Jan. 9, 1913) be repealed, and that the Council be recommended to pass an Ordinance so repealing it.

Very respectfully,

HENRY STEWART, Sec.

Miss Mary Howard, sister of the bride, was bridesmaid, and is now Mrs. Charles Wolf of near York Springs, who was unable to be present. Charles Dear-dorf, the best man, was present. Mr. and Mrs. Weaver have four children, Miss Blanche, attending Millersville Normal School, and three at home. The anniversary proved a most enjoyable occasion.

TO PALE THIN PEOPLE

Peoples Drug Store Offers to Pay

For Samose If It Does Not Make

Thin People Fat.

Pale, thin people are simply suffering from want of nourishment. They may eat enough, but their food is not properly digested and does them no good.

Samose, the remarkable flesh former, should be used by all who are pale, weak and thin. It mingles with the food and aids assimilation, so that when taken for a short time nature will soon assert her normal powers, and the food that is eaten will give strength and good flesh.

The woman who longs for rosy cheeks and the plumpness of beauty should use Samose. The man who wants to be strong and well and gain health and good flesh should find his desire accomplished by Samose.

Such remarkable results have followed the use of Samose that Peoples Drug Store is willing to pay for the treatment if it does not give the desired results. They make this offer generally and want all who are thin, weak and out of health to get a box of Samose from them on those terms.

JUDGE SWOPE PRESIDES

AT THE LICENSE COURT IN FULTON COUNTY.

It Is Described as Greatest Contest Over Liquor Licenses ever Witnessed in That County.

Judge S. McC. Swope was in McConnellsburg last week presiding at the license court in that county. The papers of that place tell the story of what happened, as follows:

"Fulton County News."

WETS WON THE GAME.

Greatest Contest Over the Granting of Liquor Licenses Ever Witnessed in This County.

In full sympathy with the steady development of sentiment throughout the Christian world against the manufacture, sale, and use of intoxicating drinks as a beverage, and believing that the licensing of places for the sale of intoxicating liquors in McConnellsburg does not contribute to the welfare of its citizens, religiously, morally, financially, or otherwise, a large number of reputable citizens through their attorneys, presented a petition to the Court on Tuesday, asking that licenses be not granted, to the applicants.

To reinforce the petition, a number of witnesses were subpoenaed, who appeared before the Court for the purpose of convincing that honorable body that there was sufficient grounds for the refusal of the licenses. The petition, the evidence, and the arguments were not convincing, and the licenses were granted.

Judge Swope acts upon the ground that it is the duty of the Court to interpret the law—not to legislate. He claims that inasmuch as the law of Pennsylvania provides for the licensing of applicants who comply with its requirements, the Court has nothing to do with a sentiment that may not be in accord with that law.

Judges differ as to their interpretation of the law. Judge Woods who presides over the courts of Bedford, Huntingdon and Mifflin counties believes that the Court has the power to refuse license, and his Court does refuse.

It should be said in passing that remonstrants in McConnellsburg made no personal fight, nor do they have any personal feeling against the Rev. Mr. Tyron, or Harry Hamill and his family. It is a fight against the liquor traffic, and for the honor of the Church, and the saving of our boys from the gutter.

LICENSE COURT CONVENES.

Charges of Violations with no Defense Offered.

ALL LICENSES GRANTED AS USUAL.

License court convened on Tuesday at 10 o'clock a. m. with President Judge S. McC. Swope and associates W. B. Stigers and Wm. Mellott on the bench.

The first order of business was the taking up of license petitions.

M. R. Shaffner presented a petition asking the court to grant a license to one, Charles Whitsell, to sell liquor, beer, &c., at Ft. Littleton.

This petition was opposed by a remonstrance bearing many more signatures than were on the petition.

The remonstrances were represented by Attorneys John P. Sipes and S. W. Kirk.

When these attorneys endeavored to show cause to the court why weight and considerations should be given to the remonstrance, President Judge Swope and attorney Sipes engaged in a controversy over the point as to why people signed remonstrances. The Judge said that he knew they had signed not because they were opposed to license at the above named place, but because they were opposed to license anywhere, therefore they could have no force against the applicant.

When Attorney Sipes intimated to the Court, in endeavoring to argue the matter, that his, the court's position was rather an assumption than an opinion based upon facts in evidence, the Judge became angry and resorted to the use of some personalities which were beneath the dignity of any court. This license was granted.

Next Attorney Shaffner presented the petition of R. W. Broadbeck for license to sell liquor at Burnt Cabins. This petition was opposed by a remonstrance bearing many more signatures than the applicant's petition. The remonstrance in this case was presented by Attorney Kirk who asked the Court if it were not true that those who signed the petition signed because of their belief in the sale of liquor anywhere, and the Court backed. That was assumption. "Oh! Consistency, then, not a jewel!"

This license was granted.

Attorney Shaffner next presented the petition of Harry Hamill for a license at the City Hotel, McConnellsburg. This was opposed by a long remonstrance signed by 64 male citizens and 102 female citizens.

Specific charges, that men of known intemperate habits had purchased liquor at this place during the past year, and that liquor had been sold to men who at the time were visibly under the influence of liquor.

Under the first charge four men testified that they had purchased liquor at this place. After this testimony from 15 to 20 witnesses were called who almost unanimously testified that the men who purchased the liquor were

men of well known intemperate habits.

The second charge, that of selling to men already drunk was testified to by an eye witness to the sale.

No defense was offered by the petitioner the testimony in both charges stood undisputed.

After brief argument by counsel for the remonstrators, none being offered by counsel for the petitioner, except that given by the President Judge, the court in the face of it all granted the license.

Under the second charge in the above case the court held that because the sale to men already drunk had been made by a bartender and not by the landlord that the landlord was not responsible.

Application of Geo. Rexroth was then presented by Attorney Chas. Walters of Chambersburg.

This was opposed by remonstrances containing 64 male signers and 102 female signers. Specific charges of selling to men of known intemperate habits, and that the applicant was an unfit person to have a license, were presented.

By reason of the attitude of the court in previous cases it was felt to be useless to try to produce a case therefore the charges were not pressed to any extent and the license was granted and the bond approved.

"The Fulton Republican."

All Applicants, Regardless of Remonstrances, Were Granted Licenses.

The regular license court of Fulton county convened at ten o'clock Tuesday morning and the entire day was consumed with the matter of the four applications for liquor license.

To the two applications from Dublin township, at Burnt Cabins and Ft. Littleton, general remonstrances were filed, but there being no specific charges against the licensees, permission was readily granted.

In McConnellsburg where general remonstrances and a charge of selling liquor to men of known intemperate habits had been filed, more time was consumed. Numerous witnesses were called by the temperance advocates, but their own evidence proved beyond a reasonable doubt that the charge was fallacious and the two hotels in McConnellsburg were also granted licenses.
